A Delicious History

A simple bowl of Chendul, embraced the perseverance and principles of the 3 generations of the Tan family, along with great memories of the Penangnites for over 7 decades.

From 1936, although faced many challenges, the principles on how Tan Teik Fuang made chendul still remains;

“Ingredients must be fresh, chendul must be made daily.”

This made us win the hearts of customers while their satisfaction gave us the key motivation to make only the best and freshest chendul.
